Education

Degree	Institute	Year	Score
B.Tech (ECE)	Netaji Subhas University of Technology, Delhi	2023–2027	6.77 / 10
Class XII	Govt. Girls Senior Secondary School	2023	92%
Class X	Hari Krishna Public School	2021	95%

Internships / Trainings

Research Intern – Biomedical AI **June 2026 – July 2026**
Indian Institute of Technology Delhi

- Developed multimodal deep learning models for medical diagnosis using ECG, Chest X-ray, dermoscopic images, and clinical metadata.
- Designed and evaluated Transformer-based multimodal architectures in PyTorch, performing literature review, ablation studies, model optimization, and performance analysis.
- Implemented explainable AI techniques (Grad-CAM, Score-CAM) for model interpretability and contributed to the preparation of a biomedical AI research manuscript.

Technical Volunteer Intern – Web Development **May 2024 – June 2024**
Nanhi Kashtiyan NGO, Dwarka Mor, Delhi

- Completed an 80-hour community project contributing to the Web Development team.
- Built a responsive website using **HTML**, **CSS**, and **JavaScript**.
- Collaborated across teams applying **problem-solving**, **teamwork**, and **time management**.

Projects

URL Shortener (Live Link) **Dec 2025**
Tools: Node.js, Express.js, MVC Architecture, JavaScript

- Built a **URL Shortener** backend application using **Node.js** to generate and manage shortened URLs.
- Initially implemented using **Node.js core modules** to understand low-level HTTP handling and routing.
- Refactored the project using **Express.js** with **MVC architecture** for better code organization and scalability.
- Implemented structured routing, controllers, and middleware for efficient request handling.

Blog Website (Live Link) **December 2024**
Tools: HTML5, CSS3, ReactJs, Bootstrap, Fetch API, JWT Authentication

- Developed dynamic blog platform using **ReactJS**, **Bootstrap**, **HTML/CSS**.
- Features include **user login/register**, **post creation**, **comments**, and **likes**.
- Implemented responsive and accessible UI.

WorldRates (Live Link) **June 2025**
Tools: HTML5, CSS3, ReactJs, React Bootstrap, TanstackQuery, Axios Instances, React Icons

- Real-time currency converter using **live exchange rate API**.
- Built with **React Hooks**, **Axios instances**, and **TanStack Query**.
- Designed UI with **React Bootstrap** and **React Icons** for better UX.

Academic Achievements & Awards

- Solved **600+ DSA problems** on platforms like **LeetCode** and **GeeksforGeeks**.
- Finalist at **Odoo'25 Hackathon**, demonstrating strong problem-solving and teamwork skills.

Positions of Responsibility

- **Core Member, Prayas Society, NSUT**
  - Teaching underprivileged children and engaged in community service by distributing books, clothes, and stationery to support their education and basic needs.
  - Leading volunteers to coordinate teaching sessions and community outreach initiatives.

Extra-Curricular Activities

- Volunteered for **CMOS and FPGA Implementation** event at **NSUT**, providing **coordination support** for smooth event execution.
- **Dedicated volunteer** in **community outreach programs**, playing a key role in **social welfare** and **community development** efforts.

Technical Skills

Languages: Java, C/C++, JavaScript, TypeScript, Python, HTML5/CSS3
Frontend: ReactJS, Bootstrap, Tailwind CSS, Redux Toolkit, TanStack Query, Framer Motion
Backend: Node.js, Express.js, Sanity.io
Databases: MongoDB, SQL
AI/ML: PyTorch, Scikit-learn, Deep Learning, Computer Vision, NLP, Transformers, Multimodal Learning
Tools: Git/GitHub, VS Code, Figma
